

Manager - GxP Services (UK)

Engineer, process engineer, biotechnologist, pharmaceutical engineer, chemical engineer, project engineer, quality engineer (m/f/d)

Your responsibilities:

To develop, manage and be responsible for GxP Services at our head office in Basingstoke, UK. Do you enjoy contact with customers? Are you happy to get involved in validation projects? Do you want to shape your own future and develop our GxP business in the UK in the future? Then we are looking for you!

- To develop services for calibration, qualification and validation in the GxP services market in the UK
- Manage, account for and strategically guide GxP services together with the Managing Director in the UK, and our fellow GxP experts in the TIS Group
- As an all-rounder, you will work productively in technical field service as an engineer as well as a supervisor and consultant for a wide range of issues in quality assurance and GMP compliance
- Grow with the tasks and participate in various projects and assignments in the areas of quality assurance and GMP directly at our customers' sites
- Take responsibility for, and proactively build our team in the UK
- Join TIS UK and accompany us on our growth path

Your prerequisites:

- You have a degree in engineering (master's, bachelor's, PhD graduate) in the fields of chemistry, pharmaceutical engineering, biotechnology, process engineering or a comparable scientific discipline
- You are willing to travel and have a valid full UK driver's license
- You have already gained experience in the pharmaceutical industry and GxP services
- You're a doer and have a service-oriented attitude and are now planning your next career move with leadership and management responsibilities
- You have a high degree of independence, hands-on mentality, commitment and team spirit and are looking forward to taking on responsibility and advancing your career

This is what we offer you:

- Reap the benefits by joining a successful and innovative service company
- Join us and become a part of the Testo Industrial Services Group of companies at our subsidiary in the UK
- We have a healthy team spirit, cooperation and togetherness which lead to exceptional customer service
- We are authentic and live the „you“ culture, which means that you can expect an equal and appreciative interaction with everyone
- Permanent professional training is a matter of course for us. If you are interested, we will also support you in further personal development
- With us, you will also be equipped with a company car for private use, company notebook, smartphone...
- Flexible working to get the job done, office based, home working and on-site at our customers sites

Benefits:

- Competitive salary; circa £50k (negotiable)
- Annual bonus plan
- Company pension
- Group income protection
- Group life cover
