

LAB CALIBRATION SUPERVISOR

Location: Basingstoke, On-site

Job Type: Full-Time (37.5 hours per week)

£36k - £40k depending on experience

About the Role:

We are seeking an experienced Calibration Supervisor to join our team near Basingstoke. This is a senior technical and supervisory role supporting the Calibration Manager and overseeing the day-to-day operation of the calibration lab.

The role focuses on ensuring valid calibration procedures, traceability and high technical standards.

Key Responsibilities:

- Supervise the day-to-day operation of the accredited calibration lab
- Support and deputise for the Calibration Manager when required
- Ensure compliance
- Ensure all lab processes, procedures and standards are followed
- Oversee order workflow through the calibration lab to meet lead time targets
- Review, validate and release calibration results and reports
- Issue release for processors of accredited procedures
- Ensure the validity and accuracy of issued calibration certificates
- Maintain metrological traceability to national and international standards
- Support the development of calibration procedures
- Assist with extensions to scope and additional accreditations
- Manage reference equipment recalibration and release back into service
- Execute and document interim checks of reference standards
- Ensure correct environmental conditions are monitored and maintained
- Ensure standards and measuring equipment are functioning correctly and fit for purpose
- Carry out occasional on-site calibration when required
- Supervise, support and train calibration engineers and technicians
- Promote a quality culture and continuous improvement

What We're Looking For:

- Proven experience in calibration
- Experience supervising or leading staff
- Confident in reviewing, approving and releasing calibration results and certificates
- Knowledge of calibration procedures, measurement uncertainty and traceability
- Familiarity with PAS, METCAL and laboratory management systems
- High attention to detail and strong commitment to quality
- Ability to support, guide and develop technical colleagues

Benefits:

- Free onsite parking
- 37.5-hour working week
- Pension scheme, life insurance and income protection (subject to successful probation)
- 22 days holiday + 3 additional days at Christmas + bank holidays
- Senior supervisory role within a well-established calibration organisation
- Opportunity to influence laboratory performance, quality and continuous improvement

What we do

Join our dynamic and innovative team at Testo Industrial Services, a leading service company for quality assurance and experts in the areas of calibration and test equipment management. Part of the Testo Industrial Services Group, we have more than 60 years of experience in measurement technology and we are dedicated to delivering first class services to our customers.
